

M2Y GLOBAL ACADEMY

We Rise By Lifting Others

AGILE MASTER CERTIFIED UK/USA

COURSE OVERVIEW:

Duration: 3 Days

Rapid changes in technology, market demands, and expectations have paved the way for the conceptualization and implementation of agile methods and values in many organizations. Agile relies on adaptive planning and iterative development and delivery. It focuses primarily on the value of people in getting the job done effectively.

Agile Master Certified (AMC) professionals possess a wide ranging knowledge and understanding of the values, methods and intricacies of Agile. The purpose of the exam is to confirm applicants have ability to compare and choose the methodology appropriate in a given situation.

You will be awarded the Agile Master Certified (AMC) certificate by M2Y Global Academy after successfully passing the certification exam.

Audience Profile: This certification is appropriate for anyone interested in getting familiar with the concepts and practices of Agile Project Delivery, and who wants to have a working knowledge of the various Agile methodologies.

Prerequisites: There is no formal prerequisite for this certification. Certified professional will be able to easily understand the concepts required for the certification exam. Alternatively, you can attend a 3-day AMC classroom training provided by a M2Y Global Academy.
