

### **Safety Program from M2Y Global Academy Becomes a TSP Qualified Equivalent Program**

**India – January 2026 - OTHM Level 6 Diploma in Occupational Health and Safety** has been reviewed by the Board of Certified Safety Professionals (BCSP) and approved as a Transitional Safety Practitioner (TSP) Qualified Equivalent Program (QEP), providing the program's learners the option to apply with BCSP for the TSP designation after completion.

The TSP meets the credential eligibility requirement for the Certified Safety Professional® (CSP®), the “gold standard” in safety certification, allowing those who hold the designation to waive the Associate Safety Professional® (ASP®) certification examination and sit for the CSP upon meeting all other requirements. Holding the TSP demonstrates accomplishment and commitment to professional development.

We are pleased to welcome learners from this exceptional safety program. Those who complete a program from QEPs have demonstrated a set of knowledge and skills that deserve recognition, and BCSP is committed to further supporting their dedication to professional development.

A TSP/QEP is a program in safety, health, and environmental (SH&E) practice that meets BCSP standards for participation and demonstrates a substantial match to the ASP exam blueprint. Learners who have completed this approved program may apply for the TSP designation within their program's applicable dates, as it appears on the QEP list.
